1. Summary of our assessment

We have assessed that:

- Our **Second Charge Residential and Second Charge Consumer Buy to Let** product range continues to meet the needs, characteristics, and objectives of customers in the identified target market.
- The intended distribution strategy remains appropriate for the target market.
- The product range provides fair value to customers in the target market (i.e. the total benefits are proportionate to total costs).

2. Product characteristics & benefits

- The products are designed to meet the needs of the target group, most notably the need to raise capital against residential or let property located in the U.K. for a variety of loan purposes. Customers will already have a first charge mortgage and are looking to raise additional capital without altering the terms of that mortgage. Consumer buy to let customers must meet **Consumer Buy-to-Let** criteria, meaning they own the property in a personal capacity and **do not operate a professional or portfolio landlord business**. The product range features and criteria are designed to support these needs.

Product Characteristics	Benefits
Fixed rate products.	Payment stability for a predetermined period.
Tracker rate products.	Generally, but not always lower interest rates (vs. fixed rates) and payment amounts. Lower, or no, exit costs (vs. fixed rates).

3. Target market assessment and distribution strategy

This target market assessment matrix segments the target customers for the product range, recognising their different needs to enable you to tailor the services you provide when you distribute the product range.

Customer Circumstances	Distribution Strategy	Customer Needs & Objectives
Unable to raise the capital they need via unsecured lending or a further advance with their existing first mortgage provider. Prefer to not disturb their existing first mortgage to avoid an early repayment charge and / or losing a preferential rate. Complex incomes including the self-employed. Recent and/or historic blemishes on their credit file. Been subject to a life event which materially impacted their credit rating. Older, including those who require borrowing past retirement age.	For new customers: • Only available through intermediary channels for new customers. • Only available through advised sale. For existing customers: • Available for those eligible and wishing to switch their mortgage during the term of their loan with advice through an intermediary or on an execution only basis.	Raise capital for a variety of reasons including debt consolidation and home improvements. Raise capital without disturbing their existing mortgage arrangements. Fix costs for a defined period. Repay the capital by the end of the mortgage term. Repay the mortgage balance by the end of the loan term. Access to higher LTI lending.
We only distribute our Product Range through the following financial intermediaries: Intermediaries must be registered after having passed West One due diligence, which includes checks to ensure they have the appropriate licences and FCA authorisations.		

The product range is not designed for customers who want the ability to:

- Port the mortgage to another property.
- Overpay more than 10% per annum without incurring early repayment charges during the fixed period.
- Borrow on a part capital repayment and part interest only basis.

4. Customers with characteristics of vulnerability

The product range is designed for a market segment underserved by high street lenders, including those who wish to consolidate debt, which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

Such customers are less likely to have a comprehensive understanding of mortgages or the mortgage market. Therefore, they may require additional advice and support to ensure they understand the information being presented to them and the implications of the arrangement they are entering into to reduce the risk of harm occurring.

We considered the needs, characteristics, and objectives of customers with characteristics of vulnerability at all stages of the design process for this product range to ensure it meets their needs.

We have also tested the product range to assess whether it will meet the identified needs, characteristics, and objectives of the target market, including customers in the target market who have characteristics of vulnerability.

We have in place a framework to achieve good outcomes for vulnerable customers, which includes:

- The requirement for all customers to receive independent mortgage and, where appropriate, debt consolidation advice from an appropriately qualified mortgage advisor.
- Education and training for our staff to ensure they have the appropriate skills and experience to recognise and respond to the needs of vulnerable customers.
- A clearly defined lending policy that dictates how affordability is assessed to ensure all customers enter our lending products with sufficient means to repay the debt, which in the case of interest only loans, incorporates evidencing a plausible repayment vehicle.
- Flexible policies, where appropriate, to support vulnerable customers.
- Monitoring to ensure we continue to meet and respond to the needs of customers with characteristics of vulnerability.

Intermediaries should continue to comply with your obligations to ensure that you treat customers in vulnerable circumstances fairly.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the product range.

5. Our assessment of value

We have developed a comprehensive and robust assessment process which evaluates several aspects of our business to determine the value of our mortgage products. This analysis is used to ascertain whether the product range delivers fair value for customers.

The outcomes of the assessment process are presented to our Product Governance Committee, allowing for challenge and further investigation before we sign-off the outcomes and share the summary of our assessment with you.

Our fair value assessment has considered the following:

Proposition Benefits & Limitations	Expected Total Price	Customer Vulnerability	Target Market
Product features, lending criteria and customer service levels are reviewed, including the benefits and limitations they provide to customers.	Interest rates, fees and charges customers pay for our products and services are reviewed and compared with market pricing and the cost of operating and funding the product range. The advice fees charged by our intermediary partners are reviewed when reviewing the cost of our proposition.	How our frameworks identify and manage customers with actual and potential vulnerable characteristics are reviewed as part of the fair value assessment. Products and services are assessed to mitigate risks that access is not impeded, and fair value is not impacted for a range of vulnerable characteristics.	How our second charge products meet the distinct customer needs and characteristics of our target customers, and we consider whether any further changes can be implemented to improve our ability to deliver fair value to our target customers.

Results of our assessment

Our assessment concluded that our Second Charge Residential and Second Charge Consumer Buy-to-Let product range continues to deliver fair value for customers in the target market.
